

## Vision

Mainland High School is home of the mighty Buccaneers!! Our high school is a place that has been accredited as an institution of excellence for over 100 years; a place that embraces tradition, exudes pride, and inspires those who pass through her doors to explore, experience, and ultimately become empowered to excellence.

## About Mainland

Mainland High School is proud of the corporate structure of wall-to-wall academies created to prepare each Buccaneer for any postsecondary pathway. This structure divides the school into three branches of broad study – Mind, Body, Spirit; At Your Service; and High Tech High.

Each branch of study supports three individual academies that serve the diverse interests, not only of our students, but of our business and community partners as well. Represented within each one of the nine academies are divisions that focus on specific areas of study and provide the opportunity for all students to earn industry certifications, academic scholarships, and a foundation for life-long learning.
